Let Last Thursday.

Special telegram to the NORTHERN TRIBUNE. LANSING, MICH., March 30.

The contract for the construction of he Mackinaw & Marquette railroad was let to-day by the Board of Control, to castern parties, represented by H. B. Crosby, of New York.

The above telegram explains itself. The news will be hailed with joy by every person interested in the prosperity and growth of Northern Michigan. The efforts of the road will be telt not only through the country through which it passes, but it will add to the growth of the entire state. The commencement and completion of the road means more to Cheboygan, however, than to almost. any other place in Michigan, unless it be health. Marquette. It means railroad communication to Cheboygan at no distant day, There is no doubt but that the Jackson. Lansing & Saginaw road will be pushed forward at least rapidly enough to make connection with this road at soon as completed. That road will come to Cheboygan. It may be that the Grand Rapids & Indiana road will also run to Mackinaw via Cheboygan. It is contended by many that this is the most feasible route The construction of this road means that Cheboygan will soon take the place which properly belongs to it-the leading
